

SMALL STEPS FOR SUSTAINABILITY

Introducing carbon neutral shipping for all
Purina for Professionals™ and veterinary
clinic orders delivered by UPS

HOW IT WORKS

MEASURE. MANAGE. MITIGATE.

UPS® provides shipping services, then purchases and retires carbon offsets from carbon sequestration or carbon mitigation projects on our behalf, effectively creating a carbon neutral shipping supply chain.

HOW YOU KNOW

CALCULATED AND AUTHENTICATED.

UPS's Carbon Emissions Calculator and methodology are verified by SGS Environmental Services Inc., the world's leading carbon verification and certification company, and also certified by The CarbonNeutral Company.

ONE MORE REASON

YOU CAN BE PROUD TO PURCHASE PURINA PRODUCTS.

We understand the importance of being transparent, and we'll continue to share our sustainability journey with you, across all life cycle stages of our products. We're happy to work with like-minded companies, like UPS, toward shared goals for environmental improvement.
